

About SFX eApplication (eApp)

The SFX eApplication process is straightforward and designed to be user-friendly. However, as you are required to provide certain information when completing the main application, it is important that this information is available to speed up the application process.

When initially creating an account you are required to provide limited information so **you are encouraged to create an account** even though you may not have the full information at hand. You can then return to the main application once you have the relevant full information.

1. SFX eApp Process:

2. Information Required:

Stage 1: To create an account you will need to provide:
